ARIF MU'AMAR WAHID, M.Kom.

arif.muamar@gmail.com • Google Scholar: scholar.google.com/citations?user=A6fWmZ8AAAAJ • ResearchGate: researchgate.net/profile/Arif-Wahid-2 • ORCID: 0009-0006-3450-4524

PhD Student
Graduate School of Natural Science and Technology
Division of Electrical, Information and Communication Engineering
Kanazawa University, Japan
Email: arifmuamar@stu.kanazawa-u.ac.jp

Lecturer
Department of Informatics
Faculty of Computer Science
Universitas Amikom Purwokerto, Indonesia
Email: arif@amikompurwokerto.ac.id

Professional Profile

Computer science researcher, lecturer, and doctoral student with interests in machine learning, data mining, recommender systems, computer vision, transfer learning, and applied artificial intelligence. Currently pursuing a PhD at Kanazawa University under the MEXT Scholarship while serving as a lecturer in the Department of Informatics, Faculty of Computer Science, Universitas Amikom Purwokerto. Combines academic research, teaching, and institutional experience in quality assurance, curriculum development, accreditation support, and higher education performance improvement.

Current Academic Positions

Kanazawa University, Japan — PhD Student, Graduate School of Natural Science and Technology, Division of Electrical, Information and Communication Engineering (Present)
Universitas Amikom Purwokerto, Indonesia — Lecturer, Department of Informatics, Faculty of Computer Science (Present)

Education

Kanazawa University, Japan — PhD Student, Graduate School of Natural Science and Technology; Division of Electrical, Information and Communication Engineering (Present)
MEXT Scholarship Awardee.

Universitas Amikom Purwokerto, Indonesia — Master of Computer Science (2025)
Thesis: Optimization of Feature Extraction Algorithm and Visual-Based Recommendation in Image-Based Website Theme Recommendation System with Transfer Learning. GPA: 4.00/4.00.

Universitas Negeri Semarang, Indonesia — Bachelor of Mathematics Education (2016)
Undergraduate thesis on the effectiveness of probing prompting learning model assisted by question card in students' problem solving ability. GPA: 3.44/4.00.

Academic and Professional Experience

Universitas Amikom Purwokerto, Indonesia — Lecturer, Department of Informatics, Faculty of Computer Science (Current)
Teaching and supporting academic activities in informatics; contributing to research and scholarly publication; supporting academic development within the faculty; participating in curriculum and institutional improvement activities.

Universitas Amikom Purwokerto, Indonesia — Staff, Educational Development and Quality Assurance Center (2017–present)
Supporting study program and institutional accreditation processes; contributing to university transformation initiatives; assisting in the development of key performance indicators; supporting curriculum development; monitoring and evaluating faculty and program performance; participating in internal quality assurance and audit activities. Award: Best Employee Award (2020).

Research Interests

- Machine Learning
- Data Mining
- Recommender Systems
- Computer Vision
- Transfer Learning
- Predictive Analytics
- Applied Artificial Intelligence
- Educational Technology
- Data-Driven Decision Support in Higher Education

Awards and Scholarships

- MEXT Scholarship (2025)
- Amikom Purwokerto Foundation Scholarship (2023)
- Best Employee Award, Universitas Amikom Purwokerto (2020)
- Academic Development Program Scholarship (2013)

Academic Strengths

- Strong academic performance across graduate study and doctoral admission pathway.
- Consistent publication activity in machine learning, AI, and applied data analytics.
- Experience in combining research, teaching, institutional quality assurance, and higher education development.
- Ability to work across academic research, educational innovation, and data-driven institutional improvement.
